

# Station 1

What do you notice?  
What do you wonder?  
**Learning Survey**

(some) students feel that they are learning things that they're interested at school, but the % is not relatively high. As teachers, do we give students the opportunity to propose ideas that connect to their course work?  
I'm surprised that only 39% of the Gr. 7's feel good about themselves. Social media influence?

There has been a decrease in Gr. 7 students' academic abilities / confidence. How can we help with this? Students do feel more supported by their teachers!

I wonder how Covid impacted this...

Sense of belonging, safety and welcoming, feeling are consistently high, but students want to use kinder words, comment that they...

I wonder if we need to make if Indigenous learning explicit. we are teaching it - do the students know?

Interesting answers to specific questions... Indigenous pandemic year - only 3 kids answered. Also Gr. 4 group during low learning "seemed low".

Students ~~think~~ don't have the tools for SEL (how actions affect others, etc.)

The Gr 7 data seems more positive in general than the Gr 4 data. why?

Interesting how much lower Gr. 7's think about themselves vs Gr. 4. "

There has been more focus on Indigenous content and knowledge.

How can we help students feel like they can make a difference in their community?

the number (percentage) is mostly lower for 2021/2022 year. "Feel about math" is getting lower. How we change that?

Learning Survey Grade 7 is dropping by ramifications of COVID? In how do we help this?

Can we change the common language about bullying? Rather than saying so and so it's bullying me can we teach them to say I feel \_\_\_ when so and so did...
